

VOLUNTEER INSTRUCTIONS

Thank you for participating in Test Drive...Next Stop Reality! Your job as a volunteer will be to guide students through making purchases while they create a monthly "adult" budget.

Students are approximately 25 years old, have chosen an occupation, and have determined their net monthly income. They may be single, single with a child, married, or married with a child. These important life details should be displayed on their name tags. If not, the front page of their Student Status Packets will list this information. Their life status will be a factor in what they will need to purchase from your station.

Auto Insurance

Each student will visit your table to purchase insurance for the vehicle or vehicles (if married) they have chosen.

Ask, "What type of car do you own?"

- Using the Station Guide at your table, have students identify the car they chose (found on page 1 of their Road Map) and have them write it in on the Auto Insurance section of their Road Map. Repeat this process if they have a spouse.
- Match their vehicle choice(s) to the correct insurance package displayed on the Station Guides.
- Review with students the Details of Insurance Coverage listed in the first column on each guide (i.e., liability, deductible) so that they gain a better understanding of how insurance protects them.
- Once the insurance selection(s) have been made, students should fill in this amount on their Road Map. If they have a spouse, they will need to total the two amounts and write it in the box.

Instruct students to record the amount in their Student Status Packet on their Transaction Register and subtract it from their balance.

Acknowledge the transaction by placing a stamp in the right column of the Auto Insurance section of their Road Map.

Auto Insurance is on page 3 of the Road Map
