

VOLUNTEER INSTRUCTIONS

Thank you for participating in Test Drive...Next Stop Reality! This pivotal station will be the last place students attend before exiting the event. Your job as a volunteer is to do a final check of student materials and collect them. Each student will need to visit your table as a last stop on their Test Drive...Next Stop Reality tour.

Check Out

Ask, "May I please see your Road Map?"

- Verify that students have visited every station by looking at the column on the right side of each page. If they have visited all the stations, there will be a stamp in each box. (Job Center and Police Tickets are optional and may not be marked.)
- If stations have been skipped, have students go back to the station they missed to complete a transaction.
- On the final page of their Road Map, have them check the box if they ended with a balance of \$0-200. If they have more than \$200 left in their account, have them choose what they will do with their remaining money (there are several options listed to choose from).
- If time permits, engage with students and ask them questions about their experience. Ask them to fill in answers to the questions on the back page of their Student Status Packet.
- Ask students to use their phone to scan the QR code on the flyer at your station and take a short student survey before they leave. Everyone who completes the survey will be entered into a drawing for ten \$25 gift cards!
- Students should take all of their materials with them when they are done, including their pen. If they don't want their pen, please have them place it in the bin on your table.

Thank you for participating in Test Drive...Next Stop Reality®!
